what you might **do**  
with your **life**  
if you had **no limitations?**

## Master I

### A New State of Consciousness

A 4-day breakthrough experience  
creating your most authentic life!

Creative  
Consciousness  
The Netherlands

# Integrity

Ever wondered what your life would look like if you started using 100% of your potential? Ever wanted to find your true calling? Ever felt like there is more to this life? What if there is a power with you – consciousness - to create a life filled with joy, passion and love? This is a course developed to reveal the power of your consciousness and equip you with tools to operate this. This training will put you in the context of self-exploration and discovery. You will gain insights that are inspiring, practical and relevant for your life and growth.

## What is Master I - A New State of Consciousness?

A 4-day training, which is structured in a way that allows awareness to build up gradually. What we care for is that you really get the material instead of just understanding it. Therefore, you will be discovering new layers of material and integrating the knowledge through exercises. Each training day contains powerful consciousness exploration inquiries combined with practical exercises. You will receive a 200-pages workbook to accompany you on your journey of exploring and discovery of yourself.

## Why should you do Master I – A new state of consciousness?

Whenever people are asked what they ultimately want from life, it mostly comes down to one of these key words: happiness, fulfillment, and freedom. But why does it not come naturally? Why is it often a struggle to achieve and maintain this?

How often do we feel stuck and frustrated in our lives because of the same old negative patterns that tend to not go away, no matter how hard we try? It seems sometimes almost impossible to turn things really around, not just for a moment. Think about those days that you wake up and your thinking and feeling says: today is not my day? But what if exactly on that day you need to give an important presentation or are having an important meeting? How do you manage yourself?

# Awareness

# Passion

In general, what do we need to do differently in order to overcome fears, insecurities, negative self-talk, and other negative sabotaging patterns and to become the creator of our reality and experiences?

A New State of Consciousness is a process of transformation that leads to increased consciousness, more possibilities, a clearer view of what you really want in life and the power to realize your dreams.

## Master I - A New State of Consciousness empowers you with:

- **Freedom** – feel free, be free and act free
- **Passion** – create the life you love to live
- **Energy** – transform anger into passion
- **Clarity** – know your calling and act from vision
- **Integrity** – get things done
- **Awareness** – perceive reality from new levels
- **Authenticity** – be real and incorruptible
- **Presence** – be here and now

In this course you gain deeper insight in the nature, functioning and source of consciousness, and in the operating system that determines how we as human beings think, feel and act. You also learn how to influence this system by eliminating blockages that keep you from reaching your goals. After these four challenging days, you will have a totally new outlook on life and will have started out on the road towards higher consciousness, more freedom of choice and more clarity regarding your personal and professional goals.

# Clarity

# Energy

# Authenticity

## Valuation afterwards & payment:

As a **private individual** you yourself determine afterwards what it is you wish to pay for the training (Valuation After Experience or VAE). Before the training, you pay only a compulsory registration fee of € 165 that covers costs for renting the venue, food, drinks, snacks, coffee/tea.

**Corporations** invest € 1.195 excl. VAT per employee.

## Why do we choose for valuation afterwards?

First of all, it makes the training accessible for everyone. Secondly, it allows to create the relationship between you and us based on the principles of authenticity and responsibility. We believe that if we want to be successful, we need to be the ones who take the risk. For you going to Master I might resemble going on a blind date – there is some risk involved, and we are willing to bear it. You need to experience Master I first and judge its value afterwards. We believe in the power of the law of attraction: that what you give, you get back. As Zig Ziglar said, “You get everything you want in life if you help enough people get what they want”.

## Practical info, course dates and registration

This four-day training always takes place from Thursday until Sunday. Each day starts at 09.00 until about 20.00. On Sunday we always end at 18.00 sharp. Master I is the foundation training for the Creative Consciousness curriculum: completion of this course is the prerequisite for attending any other course offered by Creative Consciousness, including our accredited coach training.
